“ *Lunchtime power walks around the Lab campus to free our minds of the chaos brought by work as well to encourage one another to go forth and be the best person we could be were always appreciated. Your memory will live on within me as one of positivity and helpfulness.
Rest in peace my friend.*

“ *I worked with Deborah at the lab. She was so good to me and would always bring me grits with shrimp and sausage that her husband made. She was and in spirit a really awesome lady. I will come by to pay respects where she is laid to rest.*
