“ Gio had a bright and loving heart, always put a smile on people face and made everyone laugh. He always looked out to the people he loved was there for them and always made sure they were ok. He was would always goof around and never make u feel left out. I will always remember all those times he would check on me and shadow box with me playing fighting me always annoying me, but that was his way of showing love and care something I will never forget.He loved boxing always going to the gym always finding time to for the thing he loved. He was a very sweet boy always made me smile always made me feel safe, showed me wha love was an how to be cared all those times he would be excited to show me something he learned or something he's been doing. God had to take him to soon but now I know he's finally resting and with god looking over us. Te amo and keep boxing with the angelitos ml<3 🗨
