

## Herbert E. Harris

March 23, 1942 - November 27, 2023

My dad, Herbert Edwin Harris II, was born on March 23rd 1942. He is the son of Herbert and Ruth Harris. He is survived by his wife Jill of 60 years, his daughter Natasha, and me - his son Herbert Edwin Harris III. He had 3 sisters, one brother, and a grandson. Both parents and one sister preceded him in death.

He earned his bachelors and masters degree in chemistry at California State Hayward. He worked as a chemist at various companies in the San Francisco Bay Area until he decided to teach math at the high school level. Dad was my scout master, my backpacking buddy, my running partner, my role model, and my best friend. Dad, I will miss you and think of you till my final breath.
